

# Know your right size. Get the right fit.

## Bra

### Step 1: Under-bust size

Using a soft tape, measure around the rib cage directly under the bust. The tape should be held tight, edge to edge with no space between it and your body.

### Step 2: Over-bust size

Measure completely around the bust at the fullest point. Hold the tape tight against the back but not too tight in the front.

### Step 3: Refer size chart

Consult the enamor sizing chart to find out your right size.

(Note the measurements in centimetres.)
